

City of Creswell
Budget Document
For the fiscal year 2007-2008

**CITY OF CRESWELL
BUDGET MESSAGE
Fiscal Year 2007 - 2008**

TO: Mayor Ron Petitti
City Councilors
Members of the Budget Committee

FROM: Ron Hanson, Interim City Administrator

DATE: May 23, 2007

Thank you for the opportunity to present the City of Creswell 2007-2008 Budget. The proposed 2007-2008 budget calls for levying the City's Permanent Tax Rate of 2.6705% per \$1,000, which should generate \$564,415 in property tax revenue. This is assuming that the City's current assessed value will increase 3% giving the City an assessed value of \$224,842,456. The assessed value of the City for the upcoming year will not be available until September, well after the budget process has concluded.

The budget provides for a 2.75% cost of living raise applied to the existing pay scales as approved by resolution 2007-07. PERS rates are 11.4% for tier one and tier two members, and the OPSRP rate is 8.04%. Health benefits remained stable this year, with a slight increase to medical insurance and a slight decrease to dental and vision benefits. The overall increase in personal services because of these adjustments is 6.23%.

In 2006-2007 the City began the process to complete an ordinance codification. The company selected to complete the codification is Code Publishing in Washington. A draft compilation is due for review in June of 2007, pending further legal review by both Code Publishing and the City's attorneys. I have budgeted \$15,000 for the 2007-2008 budget year as legal review and completion of the document will not take place for several more months. Once this process is complete, the code will then be placed on the City's website for easy access to the public. As new ordinances are adopted they will be forwarded to the codification company and inserted into the code. Future costs will include an annual maintenance contract.

The 2007-2008 Law Enforcement Contract would continue to provide services at the current level of two full time deputies and one ½-time sergeant. The projected increase is \$11,243 for a total contract amount of \$326,842. This represents approximately 60% of property taxes levied.

Last year the City planned to add the Utility Billing module to the new financial software. This change will provide the City with the ability to offer online bill pay options to our customers. The software has been purchased, but the release date from the vendor has been somewhat delayed. There will also be enhancements for the Accounts Payable Program, as well as updates for the General Ledger, Court, Payroll, and Accounts Receivable. Training for Utility Billing as well as training for the other enhancements will be paid for from the State Revenue Sharing Fund.

The State Highway Street Fund reflects a reduction in projected revenues as a result of the loss of Secure Rural Schools timber dollars. In order to address the loss of revenue, Council discussed the possibility of passing a gas tax as a replacement to the City County Road Partnership payments, funded with Secure Rural Schools dollars. After much discussion, the City Council determined the tax should be referred to the voters of Creswell, and will probably be on the ballot at the next primary or general election.

Debt service in the Water Fund reflects payment in full of two previously existing notes payable for water treatment plant improvements in 1990 and 1998. Debt service in the Sewer Fund reflects an additional \$100,000 payment on debt issued in 2005-2006, as it is the City's intention to buy down this debt as funds are available.

Two new funds were established in 2006-2007, for the purpose of collecting and tracking Parks and Transportation System Development Charges. These fees can be used for equipment, land building capital improvements, as outlined in the ordinances generating the System Development Charges. Currently the City does not have any specific plan for the revenues received to date. As these funds grow, Council will want to identify and prioritize projects for the use of these funds.

With all of the projects going on in Creswell, I thought a recap of the major current projects and their status would be helpful in reviewing the budget document.

Water System Improvements Project – The adopted Water Master Plan estimated an overall project cost of \$10.3 million dollars. The City has secured \$9.825 million in loans and will provide a \$500,000 match. Funding for this project has been secured through OECD (safe drinking water funds and water/wastewater funds) in the form of a \$4 million loan at 1% interest, and a \$5.825 million loan at 2.91% interest. CH2MHill, the engineering firm chosen to be the City's project engineer has worked over the past year to secure preliminary permits and complete the Department of Environmental Quality review known as a FONSI (Findings of No Significant Impact). Final design for the project has been delayed as we have been waiting on the state to complete this review. The comment period for the FONSI ended May 18, 2007 and we should soon expect to receive authorization to begin final design work on the project.

Creswell Airport Water Line Extension – Construction on the Airport Water Line was expected to commence during the 206-2007 fiscal year. City Council decided to wait and start the project after receipt of an additional \$150,000 Airport Improvement Project (AIP) grant, which would become available in the fall of 2007. This gives a total of \$567,000 for the project. The City has also applied for a Federal Aid to Municipalities (FAM) grant in the amount of \$25,000, if this grant is approved, it will be used toward the water line project as well.

City Hall Expansion – As of this fiscal year, the City has set aside \$950,000 toward the City Hall Expansion Project. Although construction was initially expected to commence last July, construction estimates exceeded revenue sources. The revised plan for the expansion called for completing the build in phases. I believe we are close to being able to construct phase I, which would include tearing down the existing City Hall and the building purchased at 125 West Oregon, constructing a two story shell, and finishing the first floor. Phase II would include finishing the second floor and installation of an elevator, while Phase III would provide upgrades to the parking area on 1st and C Street.

Creswell Comprehensive Plan Update – In response to the rapid pace of growth and development in the city, particularly in the past six years, the City Council identified a need for the City to have a vision and a clear course of action to implement that vision so the city will grow and expand in a manner that promotes and preserves the quality of life for existing and future residents. The Comprehensive plan update is timely, as it corresponds with the final phase of the development of the Regional Growth Management Strategy (Region 2050) for the Southern Willamette Valley and will position the City to take full advantage of the planning tools and data from that process. The work program for the project is divided into 9 tasks, for a total estimated project cost of \$175,000. In last year's budget a total of \$80,000 was scheduled \$50,000 in the General Fund for Tasks 1 and 2, as well as \$30,000 in the State Hwy Street Fund in order to update the Transportation System Plan, identified as Task 6. The TSP has been included with the Interchange Area Management Plan, which will be ongoing during the 2007-2008 fiscal year. The City Council recently formed a Citizen Involvement Committee, which will review the Creswell Growth Concept, include a series of public workshops and open houses. The 2007-2008 budget includes \$50,000, in hopes of completing the remaining tasks

associated with the Comprehensive Plan Update. Once these tasks are completed, the proposed Comprehensive Plan will be forwarded to the Lane County Boundary Commission, then to the State of Oregon for approval.

Harvey Road Upgrade - The City has been working with Lane County for inclusion of a portion of Harvey Road into the County Roads Capital Improvements Project list. With continued development in this area of the City, there is concern regarding the safety of pedestrians and schoolchildren who are walking from City subdivisions and crossing what is now a hazardous unimproved county road. As property has annexed into the City, any development fronting Harvey Road has been conditioned to provide payment to the City for improvements they would normally be required to install as a part of their development. With the ability to use these funds as match dollars, the County staff has recommended that Harvey Rd. from Hillegas Street, north to the Urban Growth Boundary (UGB) be included as a capital project for the County. The City was successful in keeping Harvey Road as a priority for the County, and the County Commissioners have included this project in the 2007-2008 County CIP. The project is estimated to cost \$1,815,000. The City has included match dollars for the project, as well as money to complete improvements from Scott Lane south to A Street in this year's budget. The project is in jeopardy though as the County has lost Secure Rural Schools funding and is faced with significant reductions in their overall budget.

Community Recreation Building – This building located at 364 Cobalt Lane, was donated to the City of Creswell to meet the parks and open space requirement of the Hazelwood Terrace Development on North 1st Street. The City has budgeted \$8,500 in the General Fund to share a position with Lane Council of Governments who will house an individual from Resource Assistance to Rural Environments (RARE), through the University of Oregon, who will work with the City and community members in order to determine what is the highest and best use of the facility.

Public Works Building – The City needs to start planning for the expansion and or relocation of the Public Works facilities. As the City grows, so does the need for additional equipment and personnel in the Public Works Department.

Overall, the City has once again ended the year in a strong financial position, proposes to provide the same level of services as last year, and continues to build financial reserves needed for infrastructure. As is prudent, I would caution the need to monitor expenditures as the cost of doing business continues to rise.

This is only a proposed budget and the Budget Committee can make any modifications it deems necessary in the best interest of the community. This budget document is a financial plan, which the City follows in order to provide needed City services and programs.

I would like to thank the City Staff for their input and assistance in the preparation of the 2007-2008 Budget. As always, an excellent job by the City Finance Director, Layli Nichols, whose hard work and many hours in preparing this document are reflected by its thoroughness.

A. Governmental Fund Types

(1) General Fund

This fund accounts for all general operating revenues and expenditures not properly accounted for in another fund. The major revenue sources are property taxes, franchise taxes, licenses and permits, state-shared liquor, cigarette tax revenues, fines and interest earnings.

(2) Special Revenue Funds

These funds are used to account for the proceeds of specific revenue sources that are restricted by law, ordinance, or resolution to expenditures for specific purposes.

(a) State Tax Street Fund

This fund is established as a requirement of ORS 366.815. Moneys received from the State of Oregon (gasoline tax apportionment) are the major source of revenue. In accordance with the Oregon Constitution, Article IX, Section 3a, these moneys are to "...be used exclusively for the construction, reconstruction, improvement, repair, maintenance, operation and use of public highways, roads, streets and roadside rest areas in the state."

(b) State Revenue Sharing Fund

This fund accounts for all receipts and expenditures of moneys received under ORS 221.770, which provides additional Liquor Control Commission revenues to cities on a per capita basis.

(c) Capital Improvement Fund

This fund was established to reserve moneys for future capital projects. Transfers from the General Water and Sewer Funds currently finance this fund.

(d) Bicycle/Footpath Fund

This fund was created in order to account for State Highway User revenues received by the city, which must be spent on bicycle/pedestrian pathways that are within street, road and highway rights-of-way that are open to motor vehicle traffic. ORS 366.514 mandates a minimum of 1 percent of State Highway Fund Revenues received each year by cities, counties and the Oregon Department of Transportation be spent on these facilities.

(e) Building Department Fund

This fund was created to account for activity in the building and electrical code enforcement program and will allow the City to account for all monies collected and expended administering the building and electrical programs. This will enable the City to address the concerns of co-mingling of revenues as outlined in Senate Bill 587. The major sources of revenue are building code enforcement, permit fees for plan reviews, structural, mechanical, plumbing, and electrical codes.

(f) Parks Development Fund

This fund was created to account for receipts and expenditures of Parks System improvement Fees, as permitted by Ordinance 434, to be used for capital improvements including building, land, and equipment as outlined in Resolution 2006-04. The major revenue sources are system development fees and interest earnings.

(g) Transportation Enhancement Fund

This fund was created to account for receipts and expenditures of Transportation System improvement and reimbursement Fees, as permitted by Ordinance 434, to be used for capital improvements including building, land, and equipment as outlined in Resolution 2006-05. The major revenue sources are system development fees and interest earnings.

(3) Debt Service (Local Improvement District) Fund

This fund accounts for receipts and expenditures for all local improvement districts of the City. The major revenue sources are assessment principal and interest payments received.

B. Proprietary Fund Types - Enterprise Fund

These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing the services to the general public on a continuing basis be financed primarily through user charges.

(1) Water Fund

Financial activity of the city-owned water utility operations is recorded in this fund. Sales of water and interest earnings are the major revenue sources.

(2) Water Reserve Fund

This fund was established to account for a portion of the net income from the water utility operations to provide funds for emergency repairs and extensions to the water system. Transfers from the Water Fund and interest earnings are the major revenue sources.

(3) Sewer Fund

Accounting for the financial activities of the city sewer service is maintained in this fund. Service charges and interest earnings are the major revenue sources.

(4) Sewer Reserve Fund

This fund was established to account for a portion of the net income from the sewer utility operations to provide funds for emergency repairs and extensions to the sewer system. Transfers from the Sewer Fund and interest earnings are the major revenue sources.

(5) Airport Fund

Accounting for the financial activities of Creswell Municipal Airport (Hobby Field) is recorded in this fund. Land leases, hanger rentals, and fuel sales are the major revenue sources. Transfers (as needed) from the General Fund and interest earnings are other revenue sources
